

Clough Jordan Community Farm

Welcome to Clough Jordan Community Farm.

Farming according to the principle of biodynamics our primary goal is to provide nutritionally complete produce, grown in healthy, nutrient rich soil using only organic biodynamic seed. Everything that comes off the land then belongs to the members. This makes a unique experience as members are directly connected to the source of the produce. Members also receive weekly harvest reports, quarterly newsletters and can join in on our farm social and educational events. Our produce is delivered to the coach house twice weekly - Monday and Thursdays after 1pm.

Our Vision is:

- to grow, distribute and consume food from a local member owned farm
- to provide a wide variety of seasonal vegetables, salads, herbs and fruits to farm members at a local distribution point
- to grow to organic farming standards, without the use of pesticides, herbicides, fungicides or artificial fertilisers.
- to grow heritage varieties, to save our own seeds and to enrich the soil using biodynamic methods
- to providing local employment and include a variety of volunteer effort
- to be an educational and social resource for the local and wider community

If you are a new member and have any queries with regarding the produce, would like to visit the farm or participate or host an event, please don't hesitate to contact the Coordination team:

Email: Coordinationgroup@cloughjordancommunityfarm.ie

You will receive weekly news and harvest reports via email and our Facebook page and the website www.cloughjordancommunityfarm.ie is also regularly updated with news, events and recipes.

Our typical seasonal produce is listed on the following pages. Please bear in mind that from February to April are seeding and prep months (also known as the Hungry Gap) we still have plenty of root, salad and kale veg but less fruit and green veg available during this time.

We hope you enjoy the many benefits of being a Clough Jordan Community Farm member.
